Tour and Construction Update

The Advisory Team conducted a walkthrough of the building. Installation of interior framing has been completed. Domestic water tie in has begun. The team is continuing exterior façade and window installation. Mechanical, electrical, and plumbing rough-ins continues. Elevator installation has started as has drywall on interior walls. Connection to permanent power has begun.

Health clinic update

Proposals were due April 5th and are currently being reviewed. The clinic space will not be completed by the time the building opens, but the process continues to move forward. Unity Clinic remains in the Joy Evans swing space.

Future Meetings and Site Visit

Jessica will send around a Doodle poll to schedule a time for another walk through when the building is more complete, and the clinic and program providers are selected. Providers and DHS will attend to talk through specifics and answer any questions before the building opens.

At the next meeting we'll also further discuss lighting for Randall School and the landscaping plan for outside the building.

A ribbon cutting event is projected to take place in the Fall.
